

CALL FOR ABSTRACTS AND MINISYMPOSIA AT AMMCS-2011
<http://www.wlu.ca/ammcs2011>

The International Conference on Applied Mathematics, Modeling and Computational Science (AMMCS-2011) will take place in Waterloo, Ontario, Canada from July 25 - 29, 2011. This is a Laurier Centennial Conference and a satellite meeting of the ICIAM-2011.

The conference provides a unique opportunity for in-depth technical discussions and exchange of ideas in mathematical and computational sciences, as well as their applications in natural and social sciences, engineering and technology, industry and finance. It offers to researchers, industrialists, engineers and students to present their latest research, to interact with the experts in the field, and to foster interdisciplinary collaborations required to meet the challenges of modern science, technology, and society.

Contributed presentations in lecture or poster format are invited in all areas within the scope of the conference. Prospective special session and minisymposium organizers are encouraged to submit their proposals consisting of a title, a description, and a list of suggested speakers by January 1, 2011 (a list of confirmed speakers is required by March 1, 2011). Submissions of abstracts are now being accepted online.

Further information can be found at the conference website:
